

**LEGAL ADVERTISEMENT**  
**Project Manager/Owner's Representative Needed**

Planning and engineering project in Escambia County, Florida needs an experienced project engineer or firm to manage, review and advise the Owner (Pensacola Escambia Development Commission - PEDC) on aspects of site planning and design. The successful candidate should be knowledgeable of Florida Systems: design, permitting, and construction, as well as the individuals and agencies having purview over a major industrial project.

This individual (or firm) must be a licensed Professional Engineer in the State of Florida with a minimum of 10 years' experience with local governments, permitting agencies, FDOT, construction methods and pricing, and local design standards.

He or she will be a team member representing the Owner during a 36-month period for the development of a design criteria package for site connectivity alignment and real property acquisition.

Compensation will be on an hourly basis and commensurate with experience. The project is estimated to start before or no later than **February 2018**. All interested engineers or firms should respond no later than **2:00 PM CST, January 26<sup>th</sup>, 2018**. Selection will be based on relevance to the needs of the project and fees.

A full solicitation request and additional project background are available to download from the FloridaWest EDA website at [floridawesteda.com](http://floridawesteda.com).

Questions during the preparation of submissions should be directed to Scott Luth, by email only, at [sluth@floridawesteda.com](mailto:sluth@floridawesteda.com).
