Rebecca Ferguson motioned to approve the reappointment of Lewis Bear to PEDC through 2023.

Donnie McMahon seconded.

Passed unanimously.

5. Discussion Items:

a. Strategic Plan Discussion: Rick Byars shared that RFPs for the strategic plan were requested from four different companies. We are looking at a return date at the end of this month. These will be reviewed and ranked at the early April Executive Board Meeting. The Executive Board will make a recommendation with a proposal at the April board meeting. The scope of work will include several in-community meetings in addition to a full day and a half of one-on-one meetings with elected and key officials. The Executive Board would like access to the proposals prior to their April 7th meeting. The executive members asked if they could contact the proposing companies directly prior to the April meeting. Staff will coordinate having a representative for each submitting company available.

b. ED Project Updates

1. Business Development: Scott Luth shared that we are moving into budget cycle and have our proposals for funding into the City by deadline. We requested funds for PEDC and FloridaWest separately. The county application through PEDC will be due April 1st and we will have that request in by that date. We would still have the opportunity to modify our requests if necessary. Scott shared that previous meetings on community outreach have resulted in tentative dates in April and May to highlight career exploration especially for

- underserved and unserved populations. We have received 11 RFPs and activity is really strong. He also attended a site consultant conference recently where the consistent message was surprise at how much pipeline activity they are seeing. He also provided updates on several projects currently in process. A client has been looking at the Midtown Commerce Park for a while and is moving again after a brief reprieve.
- 2. Workforce: Jeff Dyer shared that this month's workforce data is somewhat different than what we normally share. Workforce count has gone down, which is common in March. The unemployment rate stays about the same. This Friday, we will get 2017-2021 data from the census as well as our labor participation rate, which is currently at 64%. The activity around the community for hiring events is busy. It's good to see more organizations putting these on and employers are getting creative with how they try to find their talent pool.
- 3. CO:LAB: Patrick Rooney shared that there is a slight decline in square footage usage at CO:LAB. A client hit their renewal date and decided to lower their square footage to help offset the anniversary rate increase. We have 25 employees with 10 companies in the space. We have two new clients approved for move in the first of April. Square footage usage will go from 35% 40%. Brewww is a digital marketing technology firm with 80% of their clients outside the Pensacola area. They are scaling challenges to conquer growth. The other new tenant is Taste of Pensacola. This is a high growth potential firm with multiple cities launching potential.
- **4.** Cybersecurity: We were able to move some language for our cybersecurity strategy. The State will do a feasibility study to explore opportunities to set up a Security Operations Center in Pensacola. A lot of money was spent this session on cybersecurity and rural broadband in the state. This ties back into our cybersecurity strategy. While there wasn't any money tied to it, it's a huge win for us.
- **5.** Marketing: Sena Maddison referenced the newsletter that is included in the board packet going out tomorrow. She also listed all of our social media accounts (14 in total) for board knowledge. David Bear suggested copying Visit Pensacola on our content.

c. PEDC Board Updates:

- 1. Legislative/Funding Updates: Scott Luth shared that we had a really good legislative session with help from Andrade, Salzman, and Broxson. We got the additional \$5 million request for the Bluffs. Dave Murzin has been instrumental in helping to push our initiatives and we are grateful. We are now focusing on the Governor's office to ensure we do not get vetoed. We will hopefully know at the next board meeting if we made it through the Governor. The other ask we were working on was the Aviation Center of Excellence tied to ST Engineering. The collective decision was to probably not fund that this year through a legislative ask but hold until next year. We will come back with a Governor's Growth Fund ask with a good opportunity to receive funds from this ask. This will culminate in July.
- d. Strategic Partner Updates (if in attendance): Dr. Meadows shared that the high school charter academy is up and running. They are seeking enrollment from 11th and 12th grades. Legislative session was good for PSC. Both asks were granted. They received more than they asked on one ask. There is interest in establishing a vocational technology charter academy with an AMP program, which they will be exploring with Senator Broxson in the coming weeks. A former CO:LAB tenant is currently on PSC campus and has been hiring students. Their footprint needs to increase to stay on campus, which PSC has been able to accommodate. September 21st is the annual first responders' luncheon at the Bay Center. This will be the first since Covid. Brian Wyer shared that the GCMCC's first big networking event will be next week. Mentors are needed. Rebecca Ferguson shared her appreciation for support of the port. Things continue to go well and they are busy. The streamline building will start to come unwrapped in the coming weeks. Also, she had an opportunity to attend an estuary event recently, and we will hopefully see collaborative results from that combined effort. She announced that the beaching and boating forecast will start being promoted through the port's campaign. KC Gartman shared that a public announcement will come

next month on the E Moreno campus and what that could potentially look like for the community. She thanked Scott Luth for his participation in that effort. The Brent Lane project has put \$7.7M construction wages into the community. 49% of the workforce is local or minority which has allowed them to honor their commitment to keep dollars local. Window installation has begun at the Bear Family Foundation. She extended an invite to do a site tour to anyone who is interested. Dave Murzin shared that the next First Place Partner's meeting with be April 25th in Santa Rosa County.

NEW TENANT Brewww is a creative studio that specializes in web development, branding, and design services with a focus on custom work and an emphasis on long-term client relationships. Founder & Lead Engineer Kevin Wessa established Brewww in 2017 and has a strong referral network with clients from 10 states.

NEW TENANT Taste of Pensacola is an online marketplace that sells products and curated gift boxes featuring a selection of goods from local makers and artisans. Founder Tia Robbins aims for Taste of Pensacola to become a blueprint for other locales interested in creating their own city box to support local vendors nationwide.
